Galliard Homes

Over the years, Galliard has become a byword for regeneration, rejuvenation and reinvention. Since the business was founded over 30 years ago, we have built our reputation on acquiring sites in areas where there was little or no development – but great potential.

As a result of our forward-looking site acquisition policies and judicious identification of areas with outstanding possibilities, our investors have shared in our good fortune and experienced huge capital growth. Galliard locales, once unused, under-developed and with limited possibilities, have proved to be outstanding locations in which to own property, to live and to experience.

The History

of HMS Ganges

It was at Shotley Point that the wooden ship HMS Ganges was berthed from 1899, and used as a cadet training ship for the Royal Navy. In 1905 when the Ganges vessel was finally retired (and towed away to Chatham), the training facility, moved ashore.

The facility remained there until its closure in June 1976, when its training function moved to HMS Raleigh, Torpoint, Cornwall. During its lifetime, more than 160,000 Navy recruits passed through the gates of HMS Ganges.

The Naval Landmark

The Grade II listed ceremonial mast at HMS Ganges was once used for training practice for boy seamen. The recruits would need to climb the 143 foot mast partway in order to pass their training exercise.

On ceremonial occasions, the trainees would stand on various parts of the mast with the boy at the very top being known as the 'button boy'.

The mast has been described as "the best-known landmark on The Shotley Peninsula for generations".
